WHO WE ARE

Exporting Quality from India to the World

Neminath Global is a brand of Nemminath Enterprise, an India-based exporter of premium agricultural products, food items and hygiene goods, supplying importers, distributors and retailers across the globe.

We source from trusted growing regions across India, selecting each product for quality and consistency before it's processed and packed at our facilities in Rajasthan — combining traditional expertise with modern export standards. Every shipment is backed by flexible MOQs, competitive FOB/CIF pricing and full export documentation, so our partners can order with confidence.

Our Germany office, based in Kaiserslautern, now brings us closer to our European buyers — enabling faster communication, easier logistics coordination and a direct local point of contact for the EU market.
